Life is definitely not easy, but it is also not as hard as we envision it to be. It is entirely within our emote, how we decide to react to the situation that has been set before us. You can spend a lifetime crying and whining over fate, or can simply accept it and live life to the fullest. Throw in some humor, and you will be able to cope with difficulties, weather disappointment, and recover from adversities and loss.

In this competitive era, it is essential to document one's journey and Positive Link is a platform where one can journal and unleashed the potential that is within all individuals. It is an opportunity for the teachers as well as the students to look back to the things that have been achieved, and can be achieved through collective effort. It is a platform where we celebrate our individuality and find contentment in striving to be a better version of ourselves in this chaotic world. Pen down your thoughts and let your writings be a motivation for all the readers; a footprint that can be followed by those who are laid back with life's challenges.

For all the wanderlust-filled souls, we invite you to step beyond the ordinary and discover the enchanting world, where you can jot down your experiences, vis-à-vis, your expectations for the future; embracing uniqueness and celebrating the extraordinary that is within each one of us!

Their passion for teaching and commitment to their students is truly awe inspiring. We students owe a great deal of gratitude to all teachers around the globe for their hard work and dedication. Thank you teachers for all that you do.

Dear teachers of Modern Higher Secondary School, you all were truly amazing. My short stay in the school was a fruitful one as I experienced and witnessed the love of teachers firsthand. The bond between us was stronger than a teachers-student relationship; we all were so closely bonded that I never hesitated to share my problems with you all. Though it was only for two years that I stayed in MHSS, I have no regrets as we have created lots of memories which I will forever cherish.

As the nation celebrates you all this month with the special occasion of Teachers' Day, I want to, on behalf of all the students, express heartfelt gratitude for your unwavering dedication and commitment towards shaping our lives. A Child is nurtured not only by their parents but by a teacher too, Children are introduced by a stranger, which is their teacher, other than their parents. Teachers play a pivotal role throughout the life of a student. It is the teachers that teach them about knowledge from the books to the life of the outside world, shaping and molding us helping us to prepare for the harsh reality of the world, Teachers are our second parents.

There are many great qualities of a teacher that I can write and talk about but the reality is this qualities are not found in every teacher.

Fortunately for me, I Stumbled upon Modern Higher Secondary school, where I found the best teachers with all the qualities of the perfect teacher and more, Teachers that loved and care for each one of us deeply. It was truly like a family because of the bond we shared. It was only two years but those two years were filled with many amazing moments and memories that I wouldn't trade for the world. I would be lying if I say I don't miss my higher secondary specially my teachers.

Thank You to all the teachers of MHSS for the undying support and believe that You had in all of us even though all of us had our own share of weakness be it be academically or life itself, You all were there to guide us and show us the right path, Your passion and dedication towards your profession has deeply reflected on us. We are forever Grateful.

I have no regrets for joining Modern Higher Secondary School because of the amazing teachers I found, Who are truly Excellent. If I could relive my Higher Secondary days, I will always choose Modern Higher Secondary School.

Long Live Modern Higher Secondary School.
