Beauty of Spring

A season that I adore
That carries happiness along
For it fills the whole world
With pinkish coloured trees

Briefly of its beauty
Known as the cherry blossom
Blossoming with charms and warms in one's heart
As I gaze at its beauty

Gust of wind blows
Escorting down this heavenly paddles
In awe I admire them
With realisation of a fallen heart

Filled with admixture for its love
Then a thought struck
For sooner or later
Surely to dissipate

But I'd still wait
Even though months and years it takes
For its warmth to fill my heart again
In sorrow I bid goodbye.

The Right Thinking- a better tomorrow

(Every positive mindset propels you in the right direction).

Dear students,

your most precious asset is your right thinking. When failures or discouragements surround your mind, when you feel like giving up on your dreams or conclude that its impossible to achieve, just remind yourself that even the word impossible says I'm possible. Don't be pushed around by fears in your mind but shift your energy to what you can create. Always let your thoughts be filled with faith and hope, vital for a better tomorrow. As the saying goes, right thinking leads to making right beginnings and right beginnings lead to right results.
